

BASES

Application for Supervised Experience

Name

Interdisciplinary Section

Sport and/or Exercise Support.

Date

Contents

Section A: Review of Experience and Current Professional Practice

1. Introduction
2. Justification of Supervised Experience Application
3. Self-appraisal using Interdisciplinary Skills Grid

Section B: Supervised Experience Application Details

1. Previous conferences, workshop attendances and presentations.
2. Publications to date
3. Research/Evaluation Review
4. Additional relevant information
 - Curriculum Vitae
 - Degree certificate
 - Confirmation of post graduate programme **if applicable**
 - Letters of reference
 - *Name of referee 1*
 - *Name of referee 2*

Section C: Plan of Supervised Experience - Year 1.

1. Proposed Plan of work - Year 1.
2. Conclusions.

Section A: Review of Experience and Rumination of Current Professional Conceptions

1. Introduction

2. Justification of Supervised Experience Application

Name

Title of document

3. Self-appraisal using Interdisciplinary Skill Grid (taken from Smith, 1997)

Competency	Description	Baseline Assessment (Fail, Pass, Merit)	Supporting Evidence for grading	Action needed
1. Generic Competency	Competencies which clients and / or BASES could reasonable expect all sport and exercise scientists have.			
Research Skills			•	•
Needs analysis			•	•
Communication Skills				•
2. Competency - ID Competency	Competencies that are specific to the work of an ID Sport and Exercise scientist and may be context specific.			
Definition of the context and the specific problem	<i>Define the context in which you work, for example.... The context in which I operate is the promotion of physical activity to sedentary target groups, the specific problem is firstly how to facilitate physical activity for a target group and secondly, once they are active, enabling them to maintain that change of behaviour.</i>		•	•
Networking			•	•
Bridge building	Develop a working relationship with colleagues from other disciplines involved in the promotion of physical activity.		•	•
Restructuring	Process by which knowledge and practice from different disciplines and professions is integrated to form a new approach to either problem solving or intervention procedures.		•	•

Name

Title of document

Reflection upon professional practice				•
Code of Conduct and Ethics			•	•
Research/evaluation Paradigms	Demonstration of an appreciation and understanding of all available sources/types of evidence, for example qualitative and qualitative methodologies, varied methods, and research/evaluation designs.			•
Development and evaluation of the effectiveness of promotions/projects in <i>your area of work</i> within an ID context.			•	•
Dissemination and research/evaluation related to the above			•	•
Contribution to the development of the ID approach to <i>sport and/or exercise science</i> within BASES.			•	•

Section B: Supervised Experience Application Details

1. Previous conferences, workshop attendance and presentations.

2. Publications to date

3. Research/Evaluation Review

4. Additional Relevant Information

Appendix

A: Curriculum Vitae
