

BASES Bulk Membership Offer

We are aware universities need to be competitive and offer students added value for money. BASES membership is a great cost-effective way to enhance student experience, support students through their studies and provide access to exclusive events and resources that are highly valued by students and staff.

BASES would like to offer you, your students and your colleagues a special opportunity to **purchase BASES memberships at a reduced rate** via our bulk membership packages.

Benefits of being a member of BASES:

- Increase knowledge and skills - via free webinars, workshops and events
- Build networks and open doors within the sport and exercise community - attend members only events inc. Division Days
- Keep up to date with news, events and research - receive the popular BASES publication The Sport and Exercise Scientist, monthly e-newsletters and view articles and webinars via the Members' Area
- Enhance employability and career prospects - access the BASES Careers Guide including 16 job profiles – written by professionals working in the sector
- Save money on events, publishers, products and services - Routledge, Human Kinetics, DELL and many more.
